Curriculum links

<u>Art and design</u> - To develop a wide range of art and design techniques in using colour, pattern, texture, line, shape, form, and space.

<u>Education for a Connected World links</u> - To identify that some images are not real (fake).

<u>Computing</u> - • Recognise common uses of information technology beyond school. Use technology safely and respectfully.

Digital Photography Skills

Learners begin to capture their own photographs. Recognise what devices can be used to take photographs and explain how I captured a photo.

Learners explore taking photographs in both portrait and landscape formats and explore the reasons why a photographer may favour one over the other.

Learners discover what constitutes good photography composition and put this into practice by composing and capturing photos of their own.

Learners are introduced to the Pixlr image editing software and use the 'Adjust' tool to change the colour effect of an image.
