Share-onyx

It is fun to play with the toys in Reception. There are lots of children so we must try to take turns and share.

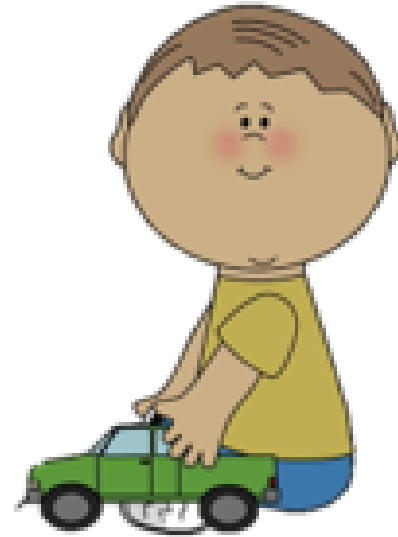

All the children can have a turn to play with the toys in Star room.

All the children can have a turn to play with the toys in Rainbow room.

All the children can have a turn
to play with the toys in in the
Garden.

Someone else might be using a toy we want to play with. This is ok. This means we need to wait for a turn.

We will try not to take the toy from someone else if we want to play. This would make them sad.

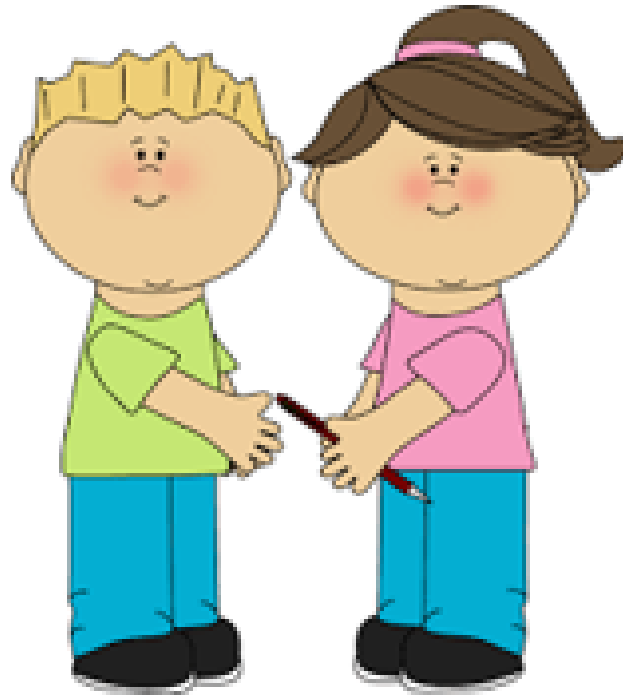

We can let our friend know we are waiting for a turn by using our words.

Or we could use a sand timer to show our friend when their turn has finished. When the sand gets to the bottom it is time to let the next person play.

Maybe we could play together. This is good fun and a great way to make friends.

It can be hard to stop playing with a toy but if we follow these rules then we will all have a turn to play. This will make us all happy.

If we follow the rules Ziggy will be very proud of us.
